FLOWER PACKAGING

Child Resistant Reverse Cap Containers

Our Reverse Cap Containers are made with BPA-free polypropylene and are equipped with a tight seal to ensure your product remains safe, fresh, and at optimal potency. The child resistant cap has the common push and turn functionality used in the pharmaceutical industry. For patients with arthritis and joint pain, our caps are reversible, allowing them to also have a standard screw cap for ease-of-opening.

Colours available:

Please note: our containers are only child resistant when the cap is in the upright push-and-turn position.

Size	Capacity	Units Per Case	Price Per Case
8 Dram	1 Gram	410	1-15 Cases: \$79.99
13 Dram	2 Grams	275	16-29 Cases: \$73.99
20 Dram	3.5 Grams	240	30+ Cases: \$67.99
40 Dram	10 Grams	150	

Child Resistant Pop Top Containers

Our Pop Top Containers were designed with performance and quality in mind. The child resistant container is made with BPA-free polypropylene and has been adjusted to produce a softer, more durable texture. The softness of the container allows for more seamless functionality, while maintaining its protective properties. To open the container, simply pinch the grip grooves near the cap and hear the satisfying “pop” as it opens.

Colours available:

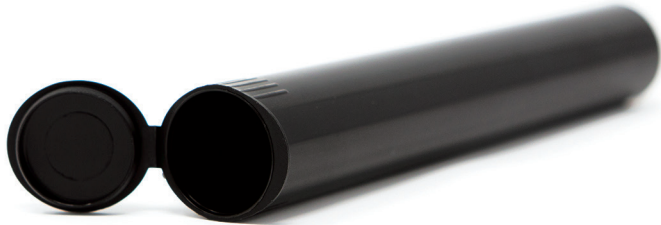

Size	Capacity	Units Per Case	Price Per Case
8 Dram	1 Gram	325	1-15 Cases: \$47.99
19 Dram	3.5 Grams	225	16-29 Cases: \$41.99
30 Dram	7 Grams	160	30+ Cases: \$35.99
60 Dram	14 Grams	75	

FLOWER PACKAGING

Child Resistant Pop-Top Pre-Roll Tubes

Child resistant pre-roll tubes are an effective and efficient way to store blunts, pre-rolls and vapes (120mm only). These tubes are made with BPA-free polypropylene and have an odor tight seal to keep your products safely secured in a discreet fashion.

Concentrate Sheets

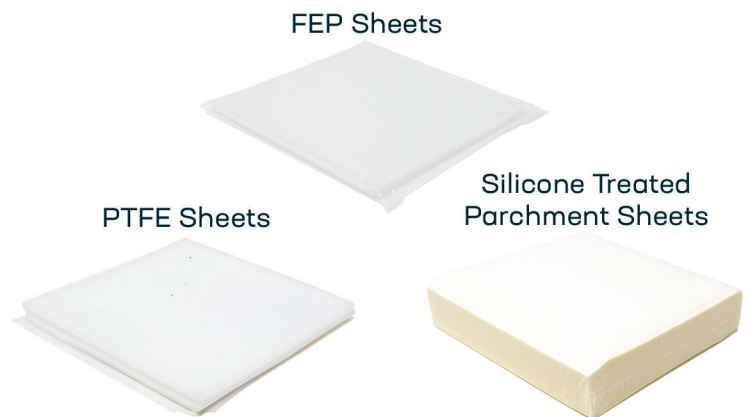

PTFE & FEP Sheets

PTFE & FEP squares are properly equipped to handle extracts that contain high concentrations of terpenes, as well as products derived through butane-based extraction processes.

Silicone Treated Parchment Sheet

These food-grade parchment squares are treated with a high-quality silicone on both sides, making them a premium non-stick solution for your premium extracts.

Please Note: If your extracts contain high concentrations of terpenes or were derived through butane-based extraction processes, please consider a packaging solution that is compatible with your extracts, such as our FEP Sheets or PTFE Sheets, as silicone may not be compatible with your product.

Type	Size	Units Per Case	Price Per Case
PTFE	4x4"	1000	Available as low as: \$129.99
FEP	4x4"	500	Available as low as: \$99.99
Parchment	4x4"	500	\$8.99
Parchment	16x24"	200	\$97.99

CONCENTRATE PACKAGING

Coin Envelopes

Coin Envelopes provide a simplistic and cost-effective way to package your extracts in a recyclable material. Use one of our high-quality sheets, such as FEP Sheets or PTFE Sheets, to wrap your extracts, then insert into the envelope and seal with the adhesive strip. If you would like to customize your own envelopes, please contact us!

Size	Colour	Units Per Case	Price Per Case

Silicone Identification Bands

Our silicone bands provide protection and clear identification between Hybrids, Indicas, and Sativas. The diameter of the bands allows for a universal fit amongst all of our vape cartridges and syringes (not including our 1mL Long Style Glass Syringe). These silicone bands help prevent damage from accidental drops and become very useful for customers who purchase multiple items at once.

Disposable Vapes

08 0.5mL Disposable w/ Ceramic Coil (2.0mm Inlet) (320mAh)

These disposable vape pens are the best on the market. They features a ceramic coil and high-powered battery combined into a single unit for maximum convenience and user-experience. The automatic inhale activated system makes the vape incredibly easy to use, and the unique glass tip allows it to stand out from the rest.

CUSTOM PACKAGING

Custom Packaging.

In a fresh industry like cannabis, branding and product identity play a vital role in the brand-to-consumer relationship. First impressions make the difference, and product presentation is key in creating a memorable experience for your customers. Highdeal specializes in custom packaging and design work to ensure your product is packaged optimally for retail shelves. Our creative team uses their extensive knowledge of print and manufacturing to ensure your project's vision is fulfilled. Whether you are an independent company ready to make your packaging as potent as the product, or a licensed producer looking for Health Canada compliant packaging, we're certain Highdeal has the solution.
